The screenshot shows a web browser window with the URL [www.industriavicentina.it/idv.nsf/Codici/3827](http://www.industriavicentina.it/idv.nsf/Codici/3827). The page features the logo for CONFINDUSTRIA VICENZA 70 and the main title "INDUSTRIAVICENTINA" with the subtitle "MAGAZINE DI INFORMAZIONI ECONOMICHE PER LE IMPRESE". The navigation menu includes "HOME", "FOCUS", "IMPRESA", "ASSONNEWS", "ANTENNA ECONOMIA", "SOCIETÀ E PERSONE", and "PIÙ LETTI".

The main article is titled "Concia e impatto ambientale, le imprese presentano i risultati del progetto greenLIFE" and is dated 10/12/2015. The sub-headline reads: "L'incontro, che si terrà martedì 15 dicembre al Galilei di Arzignano, sarà trasmesso in streaming per coinvolgere gli operatori internazionali." Below the text is a photograph of a bright orange, textured surface, likely leather, with a small yellow light reflecting off it.

The article text discusses the goal of reducing the environmental impact of leather tanning while maintaining competitiveness. It mentions a meeting on December 15th at the Galilei in Arzignano, co-financed by the UE through the LIFE program. It also notes that the project involves 19 companies and aims to reduce environmental impact through innovation in tanning and the use of alternative materials.

On the right side of the page, there is a "TV e Radio" section with links to "Confindustria Sette" and "Confindustria 88". Below that is an "Imprese" section featuring an article about "Arzignano vince il premio italiano Design Best of Year 2015" and another about "Le stornie ottimali ISO 9001 vent'anni dopo".
